TEC Equipment, Inc. Signs Dealership Agreement with Cottrell, Inc.

Portland, OR 9 February, 2010 – TEC Equipment, Inc. is pleased to announce that it has signed a dealership agreement with Cottrell Inc., the nations largest auto transport equipment manufacturer.

TEC Equipment will sell Cottrell auto transport equipment and related parts at it's Portland, Oregon location at 9414 NE Vancouver Way, Portland, OR 97211. TEC Equipment will also service and repair Cottrell equipment at the same location. TEC Equipment has plans to expand Cottrell sales and service to one or more of it's seven (7) other dealerships in Oregon, Nevada and California.

TEC Equipment opened it's full service auto transport equipment division in 2001. The division grew rapidly to become one of the largest auto transport equipment dealerships in North America. The company has established itself as one of the country's top suppliers of auto transport equipment parts for all makes of equipment including Cottrell, Boydston and Sun Valley. TEC Equipment has also established itself as the preferred repair and service facility for auto transport equipment.

"We are very excited to have this opportunity," said TEC Equipment Auto Transport Equipment Sales Manager Dave Fleischman. "Cottrell is the leader in the car carrier segment and we are proud to be working closely with them."

TEC Equipment President and CEO David Thompson said, "With the addition of the Cottrell product lineup, our auto transport equipment division has come full circle. The relationship allows us to expand market presence while opening the Western U.S. market to Cottrell parts, service and sales."

Cottrell Vice President of Sales Jeff Martin said, "We are very excited to partner with TEC Equipment. With their size and expertise, TEC Equipment will be able to successfully compliment their current product lines with the most sophisticated and versatile car hauling equipment in the world today."

About TEC Equipment, Inc.

Headquartered in Portland, Oregon, TEC Equipment, Inc. has 12 locations strategically located along the west coast's I-5 corridor including Portland, Wilsonville, Eugene and Medford, OR, Oakland, CA, three locations in the Los Angeles area and one in Reno-Sparks, NV. Since its modest beginnings in 1976, TEC Equipment has grown to be one of the west's most recognized multi-point, full service truck dealership groups. TEC Equipment's truck franchises include: Mack, Volvo and GMC along with authorized service centers for Autocar and Cummins & CAT engines. With a large inventory of used trucks, parts, service, body shop, fuel, insurance, financing, rental and leasing, TEC Equipment offers one stop truck shopping.
