

OUR EXPERTISE IS YOUR ADVANTAGE ON THE ROAD

Model C-10LT A/B Highside Stack Car Hauler

The Cottrell stinger model C-10LT highside is derived from a family of successful and proven trailers that have been in the industry for over 20 years. A direct reflection of customer feedback, the new "post forward" design allows for superior door openings, load maximization, and easy multiple drop configurations. Our unique corrosion resistant tandem screw drive and split valve banks are two of the many standard features that have made this one of our most popular models to date.

More Car Hauling Trailers
