

OUR EXPERTISE IS YOUR ADVANTAGE ON THE ROAD

Model 4-Car Sleeper Style

If your customer base is calling for you to primarily haul sedans and small cars, Cottrell's headramp model 4-Car Sleeper Style may be perfect for you. Designed for Class 8's with smaller sleepers, this headramp maximizes load capacity with two full sliding upper positions. Two sets of wheel pockets also give this headramp added versatility. Choosing a telescoping second position even makes this headramp SUV friendly. Contact your sales representative to see if the 4-Car Sleeper Style is the right choice for you.
