

OUR EXPERTISE IS YOUR ADVANTAGE ON THE ROAD

Model 4-Car Std Day Cab

With many years of road experience, Cottrell's headramp model 4-Car Standard has been the overwhelming choice for fleets operating day cab tractors. This headramp sideframe has proven to be durable, flexible, and ergonomically sound for drivers. Wheel pockets, adjustable aluminum risers, and sliding upper positions are strategically designed to maximize your load configuration. If you are thinking of adding day cabs to your fleet, contact your sales representative to find out if this proven model would be beneficial to you.
