

OUR EXPERTISE IS YOUR ADVANTAGE ON THE ROAD

## Model CX-7MST Low Sideframe Stack Car Hauler

The model CX-7MST utilizes a mid range approach in meeting speed, efficiency, and versatility. This model allows individuals to optimize their multiple short drop applications. However, load factor maximization for long hauls can be achieved by simply instilling a little more thought and time to take advantage of all seven (7) positions of the trailer. You will also find a unique combination of aluminum cylinders and stainless steel screws in this popular model. This trailer is best used with our 3-Car CS headramp. The model CX-7MST was adapted from the model CX-6MST to create a 7 car trailer by adding a deck over the tandem. Call your experienced Cottrell sales representative today to find out if this 7-car model will benefit your organization.

### More Car Haulers
