

OUR EXPERTISE IS YOUR ADVANTAGE ON THE ROAD

## Model ENC-3 Enclosed Car Hauler

The ENC-3 is a high mount product that can be utilized to meet the demand of luxury vehicle transporters or specialized hauls. This product also offers an opportunity to break into the industry with limited exposure while maintaining maximum load efficiencies. This piece of equipment contains all the added benefits of owning a Cottrell product including quality curtains, L.E.D lights, air brakes, aluminum tracks, and 40,000 pound axle rating. This product is best used with a single axle business class truck. Contact your Cottrell sales representative to discuss your specific curtain designs.
